Hi Donna. The 18th works best here. I think an agenda is a good idea. Let me know what is on it. It's your dime.:)

Subject RE: Conference call

Hello Philip.

It looks like we're narrowing the dates down to Nov 17 or 18 possibly. I can tell you something more definitive tomorrow.

Before the call, we should set up an agenda so that everyone can know what we'll be talking about and bring as much information as possible to share.

One basic question to begin with is, has TCEQ recently made any requests for Exemptions to EPA, either for an application to mine by Uranium Energy Corporation or any other in Texas?

If so, what is the process at present and when are the opportunities for comment or contest?

I am copying my enquiry to Jim Blackburn, Attorney representing Goliad County and Art Dohmann, with the Goliad County Groundwater Conservation District. Mr. Dohmann serves on the County-appointed Uranium Research Advisory Committee. Both gentlemen will participate in the call. There are a couple of others who may also be on the call. As that firms up, I'll let you know.

Thank you, Donna
